VISION STATEMENT

The goal of the Pennsylvania Gaming Control Board is to be the premier gaming regulator in the United States, maintaining and enhancing public trust with honesty, integrity and credibility.

MISSION STATEMENT

The Pennsylvania Gaming Control Board, guided by the Gaming Act and supported by a dedicated professional staff, will protect the interest of the public by ensuring the integrity of legalized gaming through the strict enforcement of the law and regulations, the licensing of qualified individuals and entities, and fulfilling the objectives of legalized gaming in the Commonwealth to deliver a significant source of revenue, assist the horse racing industry, provide broad economic opportunities and enhance tourism.

MESSAGES FROM THE CHAIR & EXECUTIVE DIRECTOR

Denise J. Smyler
Chair

As I enter my second three-year term, serving as Chair of the Pennsylvania Gaming Control Board, I want to once again thank Governor Tom Wolf for giving me this opportunity and placing me in this position of responsibility. I remain excited about what legal gaming is currently producing for the Commonwealth.

When the original Gaming Act was passed in 2004 creating Pennsylvania's casino industry, the major goals of this endeavor were to create tax revenue and jobs. Those were also the main goals behind the 2017 Gaming Expansion Act that launched, among other undertakings, internet-based games and sports wagering. I am pleased to report that gaming is indeed fulfilling those promises. During the 2021-2022 Fiscal Year, total tax revenue from gaming regulated by the PGCB reached \$2 billion for the first time. The increased tax revenue is providing additional dollars to the amount that homeowners receive annually for a reduction of their school property taxes while also providing funding to areas such as economic development, county grants and the agricultural community.

Additionally, casinos and gaming are providing family-sustaining jobs at locations spread throughout the Commonwealth. At the end of the fiscal year, nearly 15,000 individuals were employed in the industry, 40% of which represent racial minorities.

The industry also is responsible for sustaining revenue and jobs for many other companies through its purchase of goods and services. Nearly 5,000 enterprises transacted business with gaming operators during the fiscal year.

There are many other positive indicators of a healthy Pennsylvania gaming industry contained in this report and on our website, gamingcontrolboard.pa.gov. I am pleased to provide this report for your review to better understand the work of the PGCB on behalf of the citizens of Pennsylvania.

Denise J. Smyler
Chair

Kevin O'Toole
Executive Director

The staff of the Gaming Control Board continued to carry out its mission of oversight of Pennsylvania's gaming industry including the launch of two casinos, numerous video gaming terminal establishments, and additional online sites for both sports wagering and casino-type games that provides the public with more choice in their gaming options.

The opening of Hollywood Casino York and Hollywood Casino Morgantown brings to 16 the number of casinos operating in the Commonwealth. Additionally, there was growth in the number of internet sites for casino-type games and sports wagering bringing the total of sites to 19 and 14 respectively at the close of the fiscal year. Finally, establishments at qualified truck stops hosting video gaming terminal (VGT) rooms also rose from 52 to 65 by the close of the fiscal year.

The continued growth in the Pennsylvania gaming sector also propelled tax revenue to new heights breaking the \$2 billion barrier for the first time. This was especially noteworthy after gaming operators struggled during the Covid crisis. The industry indeed has emerged from that period as strong as ever.

Along with the gaming operators, the terrific staff of the Gaming Control Board were also instrumental in ensuring that gaming grew. I am grateful to all of my colleagues in the agency and proud of their work. I want to also thank you for taking the time to review this annual report. Should you have any additional questions or concerns beyond what you find in these pages, please do not hesitate to contact us by e-mail at pgcb@pa.gov.

Kevin O'Toole
Executive Director

THE WORK OF THE PENNSYLVANIA GAMING CONTROL BOARD

The Pennsylvania Gaming Control Board (PGCB) is an independent state agency created by the Pennsylvania Race Horse Development and Gaming Act of 2004. It is charged with the regulatory oversight of certain types of legalized gaming in the Commonwealth of Pennsylvania. This includes casinos, retail and online sports wagering, online casino-type gaming (iGaming), video gaming terminals at truck stops, and fantasy sports contests. The PGCB keeps a watchful eye on these various forms of gaming to protect the interests of all Pennsylvanians. Dedicated PGCB staff create and carry out a strong, but fair regulatory framework to ensure that the gaming industry in the Commonwealth is held to the highest standards.

The success of legalized gaming has led to a significant tax base that is generating millions of dollars a day to lower school property taxes, help the horse/harness racing and agricultural industries, fund economic development throughout the state, and provide financial help to local communities. Just as important, the gaming industry provides living-wage jobs to over 15,000 individuals.

The PGCB consists of nine Bureaus and Offices with approximately 325 employees and a budget of \$43.3 million (see page 12). These employees interact with the public, the gaming industry, public officials, and various other constituencies from within Pennsylvania and outside the Commonwealth.

Employees by Bureau/Office	June 30, 2022
Commissioners	7
Executive Offices	9
Investigations & Enforcement	80
Casino Compliance	141
Licensing	20
Office of Chief Counsel	11
Hearings and Appeals	4
Gaming Operations	20
Administration	33
Total	325

The PGCB is charged with promoting and ensuring diversity in all aspects of gaming authorized under the Act. Entities licensed by the PGCB are required to submit Diversity and Hiring Plans (“Plans”) to the agency prior to the commencement of operations in the Commonwealth.

The Plans set forth goals that are reasonable and represent a good faith effort to assure that all persons are afforded equality of opportunity in contracting and employment. Licensees are required to provide the agency with updated Plans on an annual basis. Licensees are also required to submit quarterly reports to the PGCB describing activities undertaken during the prior quarter regarding the development and implementation of the Plans. An annual review is conducted on each licensee’s activities related to the performance of its Plans. The annual review evaluates whether the licensee has taken effective and meaningful action to implement the Plans. Additionally, the annual review analyzes whether a licensee’s Plans and other actions have achieved or will achieve the Commonwealth’s goal of enhanced representation of diverse groups in the gaming industry as set forth in the Act. A separate and detailed report on these efforts is available on the PGCB’s website.

Another important task performed by the Board is to ensure that every licensee has established, and continues to comply with an approved compulsive and problem gambling plan (see page 10-11).

Public Meetings

One of the most visible aspects of the Board originates with public meetings. This fiscal year the Board held 17 public meetings. Twelve of those were monthly public Board meetings that detail the everyday work of the Board. In this fiscal year the first three of those meetings were held via video conferencing and live streaming due to Covid-19. Starting in October 2021, the Board began holding in-person monthly meetings but with Covid-19 precautions in place. Similarly, five public input hearings were held: four for casino licensure renewals and one for a category 4 casino applicant in College Township, Centre County (see page 13).

Monitoring for Gaming Integrity

The PGCB’s Bureau of Casino Compliance (BCC) provides in-person representation in every Pennsylvania casino to assure the integrity of gaming. Casino Compliance Representatives (CCR) scrutinize all aspects of the gaming floor and back-of-house operations for any regulatory violations. Additionally, server locations for all online providers are approved by bureau personnel to ensure the location meets security and regulation standards.

In this fiscal year, BCC’s staff assessed, reviewed, and investigated more than 1,300 patron complaints in partnership

with various offices and bureaus within the agency.

Licensing Work:

The PGCB's Bureau of Licensing (BOL) is also dedicated in its role within the agency to protect the integrity of gaming through the licensure of the individuals and entities participating in Pennsylvania's gaming industry.

Of particular note during this fiscal year, BOL staff worked with representatives from Hollywood Casino York and Hollywood Casino Morgantown to assist in meeting August and December 2021 casino opening goals. Specifically, BOL licensed more than 350 employees at Hollywood Casino York and over 275 at Hollywood Casino Morgantown.

Additionally, the Board renewed the Category 1 licenses of Chester Downs and Marina LLC (Harrah's Philadelphia Casino & Racetrack) and Washington Trotting Association, LLC (Hollywood Casino at the Meadows) as well as issued an initial Category 4 license to GW Cumberland Op Co (Parx Shippensburg), a casino that is scheduled to open in early 2023.

BOL saw a 20% increase in applications received during the fiscal year and a 25% increase in application approvals. Throughout the fiscal year, following the completed background investigative work of the PGCB's Bureau of Investigations and Enforcement (BIE), BOL licensed seven iGaming Operators and one Sports Wagering Operator as well as seven iGaming Manufacturers and one Sports Wagering Manufacturer (applications are listed in the following charts).

In addition, staff analyzed and investigated more than 186 iGaming and Sports Wagering Gaming Service Provider applications and notifications to support interactive gaming

VGT Establishments	6
Total	10,299

and sports wagering activities.

A number of other changes went into effect this fiscal year. Of note, was the fingerprinting process for industry employees which was moved from the PA State Police at the licensed facilities to Idemia/IdentoGO locations. To ensure convenience of this process, many of the casinos added an Idemia location at their property and their HR staff was trained on how to administer the process. Another important change occurred in April 2022 when the filing requirement for privately held corporations went from a 1% or more ownership filing requirement to a 5% or more threshold.

After extensive background work, the PGCB approved licensing of six Video Gaming Terminal (VGT)

Establishments during the fiscal year.

Additionally, BOL staff printed more than 9,000 credentials and the PGCB collected \$17.6 million in application and license fees.

The mission of the PGCB's Bureau of Investigations and Enforcement (BIE) is to ensure the integrity of the Commonwealth's gaming industry and protect citizens' interests by conducting thorough suitability and enforcement investigations. This is accomplished through licensing, enforcement and financial investigations.

Licensing investigations are done on all applicants for any license, permit, or registration and result in BIE preparing a comprehensive report for the Board detailing the applicant's background and suitability.

BIE also investigates all licensees and other persons regulated by the Board for non-criminal violations of the Gaming Act. Examples of these investigations are; an exclusion request for a patron passing counterfeit money; payments by a licensee to prohibited vendors; employee misconduct; and, underage gaming.

The BIE's investigatory reports on these various violations or complaints are forwarded to the Office of Enforcement Counsel for potential action.

Additionally, BIE has its own Financial Investigations Unit that maintains and reviews all corporate compliance submissions presented to the Board. The unit monitors financial stability of licensees to assure the public's interest is protected in accordance with the Act. BIE's financial investigators and analysts conduct in-depth financial investigations of principals and corporate enterprises.

Legal Matters and Hearings:

Within the PGCB resides several legal offices that work independently of each other: The Office of Chief Counsel, the Office of Hearings and Appeals, and the Office of

Enforcement Counsel.

The Office of Chief Counsel (OCC) continues to oversee the provision of all legal services to the Board and the various bureaus that make up the agency; assisting in contracting, litigation, employment matters, Right-to-Know Law requests and other miscellaneous administrative functions. For example, since the onset of the COVID-19 pandemic and the greater use of telework by agency staff, the OCC has worked closely with the PGCB's Office Services to negotiate new lease terms for reduced space at the Board's regional offices while taking into consideration the ongoing need for space to conduct such agency business as investigative interviews, self-exclusion processing and remote hearings.

Additionally, the OCC advises the Board on matters coming before it for consideration. OCC also represents the Board in appeals of Board decisions, as well as in outside litigation matters.

OCC's licensing attorneys play a significant role in all of the Board's licensing decisions including review of background investigation reports and preparation of suitability reports that are presented to the Board prior to all licensing decisions. These types of reports have increased since new forms of gaming have come on-line in the Commonwealth.

Finally, in consultation with other departments within the agency, the OCC drafts and submits to the PGCB's Executive Director and the Board for their approval policies and rulemakings which make up the complete regulatory scheme for gaming in the Commonwealth.

Types of Filings	FY 21/22
Petitions	291
Answers/Motions/Misc.	1,244
Enforcement Actions	152
Requests for Oral Hearing	34
Reports and Recommendations Issued	73
Exceptions	23
Disposed Hearing Files	43
Total Orders Processed	714
– Board Orders	582
– OHA Orders	132
Hearings Conducted by OHA	110
Records Certified to Courts	1
Requests for Documents	21

These rulemakings contain all of the regulatory oversight provisions for Fantasy Contests, Interactive Gaming, Video Gaming Terminals, and Sports Wagering.

The Office of Hearing and Appeals (OHA) receives legal filings that come before the Board from many avenues including those submitted through the PGCB's electronic filing system, an important tool that permits filings to be accepted in a timely manner.

OHA's web-based filing retrieval system was also updated to enable the interested public to look up filings and any accompanying documents. As a result, physical requests for documents have greatly decreased over the past few years since the Board provided direct access to all public filings via the agency's website.

During the fiscal year, the OHA received more than 2,500 filings to be processed.

OHA is also responsible for providing hearings to applicants, licensees and others seeking Board action, and did so throughout the pandemic through the extensive use of technology that permitted hearings to be held remotely. Due to the success of holding remote hearings during the pandemic, either via telephone or video, OHA has continued to offer these options to hearing participants, though they continue in person hearings when requested.

During the fiscal year, OHA held four public input hearings

Pre-Licensing	
Background Investigation Reports	1,556
Financial Fitness Assessments	41
Petition Answers	99
Post-Licensing	
Enforcement Actions	1,075
Petition Answers	137
Financial Fitness Assessments	1
Consent Agreements	19
Consent Agreement Fines	\$489,000

associated with casino license renewals: two in March 2022 for Hollywood Casino at the Meadows and Rivers Casino Pittsburgh; and, two in April 2022 for Harrah's Philadelphia Casino & Racetrack and Valley Forge Casino Resort. Public input hearings ensure that individuals, community organizations, and government officials have the opportunity to provide comments to the Board about the licensees. If the Board determines these entities are qualified to have the license renewed, it is done so for a subsequent five-year period.

The Office of Enforcement Counsel (OEC) is a statutorily created independent office, whose duties include, but

Ribbon Cutting at Hollywood Casino Morgantown – December 22, 2021

are not limited to filing recommendations and objections on all licensing matters; providing advice and direction on background investigations, audits, inspections, and investigations of potential violations; initiating, in its sole discretion, proceedings for noncriminal violations; and petitioning the PGCB or Commonwealth Courts for certain relief as needed.

Between July 1, 2021 and June 30, 2022, the following statistics are attributed to OEC's regulatory oversight prosecutorial work:

During the fiscal year, the PGCB approved 19 Consent Agreements negotiated by OEC, resulting in \$489,000 in fines. Consent Agreements are the final product of an investigation conducted by PGCB staff into violations of law or regulations. Investigations include, but are not limited to, review of video surveillance, interviews of those involved, accounting audits, and engineering analysis of machine operations. Investigations can be simple or very complex depending on the situation and may involve different bureaus and can arise from a patron's complaint, audits by PGCB staff or Department of Revenue staff, or through observations by PGCB staff on-site at each casino. Casinos in Pennsylvania are required to self-report any potential violation. In this scenario, once casino management becomes aware of a violation, they are required to report the violation to the appropriate PGCB staff. For example,

Involuntary Exclusions	Additions	Removals
Assault	1	
Cheating	12	
Child Endangerment	24	
Controlled Substance	2	
Counterfeit Currency	3	
Criminal Activity		1
Disorderly Conduct	1	
Firearms	3	
Forgery	2	
Harassment	1	
Theft	25	1
Threats	2	
Trespass	1	
Underage		1
Underage/Aiding	1	
Total	78	3

if an underage individual gains access to the gaming floor, casino staff informs PGCB staff, typically a CCR, and a compliance review commences to determine the circumstances of the case. Additionally, through the Board's work, the PGCB placed 78 individuals on and removed 3 individuals from the Boards Involuntary Exclusion list.

Equipment Testing:

One of the primary ways the PGCB protects the public is through testing of equipment used in all aspects of gaming through its Office of Gaming Laboratory Operations (GLO). Licensees may not use slot machines, table games, internet-based games, sport wagering technology and other associated gaming equipment until it is approved.

To better carry out its mission, GLO oversaw a major upgrade to its testing laboratory during the fiscal year. The upgrades included the installation of a new network infrastructure and cabling system that allowed for gaming system integration, enhancement of testing procedures, and implementation of a system that produces faster turnaround time for gaming approvals.

GLO also further integrated the use of persistent state games in iGaming and land-based slots in the approval process. In general, persistent state games allow for players to carry over a portion of one spin to the next to accumulate some form of bonus that can then be applied toward a reward or win.

Additionally, GLO received submissions from five new gaming suppliers bringing the total number of suppliers the gaming lab has worked with since inception to 81; reviewed new table games for inclusion within three new regulation packages; and, reviewed the configurations of progressive slots and tables for two new casino openings. GLO also conducted reviews of the first Wide Area Table Progressive System within the Commonwealth.

Internal Controls and Gaming Operations:

The Bureau of Gaming Operations (BGO) works to ensure the integrity of retail gaming, interactive gaming, VGT's, fantasy contests, and sports wagering operations of license holders and associated entities licensed by the PGCB.

In conjunction with equipment reviews, all gaming venues, whether land-based or online, must have a written system of internal controls that describe its operating procedures in key departments such as finance, security, surveillance, table games and slots.

In Fiscal Year 2021/2022, BGO reviewed over 1,000 internal control submissions, conducted nine compliance audits, and oversaw the opening of three new iGaming sites. In addition, the BGO made certain that the agency stayed well-informed regarding potential risks, challenges, innovations, and best practices in all aspects of gaming as well as ensuring the continued success of the industry as a whole.

On the retail gaming side, BGO assisted with the opening of two land-based casinos, Hollywood Casino York, and Hollywood Casino Morgantown, by ensuring each licensee had effective accounting and internal controls in place prior to opening. BGO staff also worked closely with four casinos (Hollywood Casino at The Meadows, Hollywood Casino York, Hollywood Casino Morgantown and Valley Forge Casino Resort) to implement cashless wagering on slot machines and/or table games, giving players another option to safely and securely fund slot machines and purchase table game chips, while ensuring players have access to responsible gaming tools to set spend and deposit limits. Finally, BGO introduced best industry practices related to iGaming account security designed to reduce fraud, identify theft and unauthorized account access, and align Pennsylvania with other U.S. gaming jurisdictions.

Sports Wagering Oversight

The Office of Sports Wagering Operations works to ensure the integrity of sports wagering licensed operators. A primary goal of the Office of Sports Wagering Operations is to protect the public by ensuring the agency stays well informed regarding potential risks, challenges, innovations, and best practices in all aspects of sports wagering as well as ensuring the continued success of the industry as a whole. The Office of Sports Wagering Operations also assists with regulatory aspects of interactive gaming on a regular basis.

In fiscal year 2021/2022, the Office of Sports Wagering Operations led the implementation of sports wagering activity within three new retail locations and via two new online sports wagering sites. In addition, 334 submissions were reviewed, evaluated, and approved outlining the types of sporting events and wagering options offered to the public. Additional areas of oversight included, but were not limited to, the review of risk and trading error reports; integrity monitoring reports outlining potential unusual or suspicious wagering activity; sports wagering internal control procedures; and, patron complaints received from the general public. These functions are performed to ensure compliance with the Gaming Act, Board regulations, and each licensee's internal controls while also ensuring the continued success of the sports wagering.

OFFICE OF COMPULSIVE AND PROBLEM GAMBLING

Gambling disorder, often identified as problem gambling or gambling addiction, includes all gambling behavior patterns that compromise, disrupt or damage personal, family or vocational pursuits. Like other addictions, problem gambling is both treatable and preventable.

Gambling disorder is known as the “hidden addiction”, however there are signs and symptoms that may help in detecting the disorder. Signs of problem gambling include increased preoccupation with gambling, a need to bet more money more frequently, restlessness or irritability when attempting to stop gambling, “chasing” losses, and continuing to gamble even when the gambling behavior has caused mounting, serious, negative consequences.

In 2006, recognizing the need to protect those who suffer from gambling disorders, the Board established the Office of Compulsive and Problem Gambling (OCPG). It is the OCPG’s mission to develop and adopt responsible gaming regulations and policies in conjunction with educational materials and outreach activities to assist those who are affected by gambling disorder and to prevent those at risk from developing an addiction in the future.

The OCPG collaborates with other problem gambling related organizations to ensure that the Board is providing effective tools and programs. The Director of the OCPG is the chair of the National Council on Problem Gambling’s

Membership Committee and sits on the Board as Treasurer of the National Association of Administrators for Disordered Gambling Services. The OCPG works closely with other state organizations like the Department of Drug and Alcohol Programs, the PA Lottery, and the Council on Compulsive Gambling of PA to ensure that citizens of the Commonwealth are able to access information on statewide gambling disorder treatment and prevention programs.

Gaming licensees and operators in Pennsylvania are required to develop and comply with approved compulsive and problem gambling plans. These plans contain operators’ responsible gambling policies and procedures including details on the annual responsible gaming employee training program, responsible gambling advertising policies, procedures to provide educational materials to patrons and online players, the methods used to identify individuals who may be experiencing problem gambling behavior and how each entity will assist these individuals.

The Board continues to maintain voluntary self-exclusion programs to assist individuals with gambling disorders on their path to recovery. The Board’s voluntary self-exclusion programs provide individuals with the ability to ban themselves from Pennsylvania casinos, interactive gaming sites, fantasy contest sites, and/or video gaming terminal establishments. Since 2006, the Board has received over 18,000 requests for self-exclusion.

All Self-Exclusion enrollments and removals are now accepted online. Visit ResponsiblePlay.pa.gov to learn more about self-exclusion and other information from the OCPG.

10 RULES OF RESPONSIBLE GAMBLING

1. If you choose to gamble, do so for entertainment purposes. If your gambling is no longer an enjoyable activity, then ask yourself why you are still “playing.”
2. Treat the money you lose as the cost of your entertainment. Treat any winnings as a bonus.
3. Set a dollar limit and stick to it. Decide before you go not only what you can “afford” to lose, but how much you want to spend. Do not change your mind after losing.
4. Set a time limit and stick to it. Decide how much of your time you want to allow for gambling. Leave when you reach the time limit whether you are winning or losing.
5. Expect to lose. The odds are that you will lose.
6. Make it a private rule not to gamble on credit. Do not borrow money to gamble.
7. Create balance in your life. Gambling should not interfere with or substitute for friends, family, work or other worthwhile activities.
8. Avoid “chasing” lost money. Chances are the more you try to recoup your losses, the larger your losses will be.
9. Don’t gamble as a way to cope with emotional or physical pain. Gambling for reasons other than entertainment can lead to problems.
10. Become educated about the warning signs of problem gambling. The more you know, the better choices you can make.

PUBLIC MEETINGS & EXECUTIVE SESSIONS

The Pennsylvania Gaming Control Board convenes public meetings monthly to conduct its business and render decisions on applications, petitions and reports and recommendations. In order to complete its work timely and efficiently, the Board may convene more than one public meeting during a single month. It is customary for the Board to conduct an executive session the day prior to a public meeting for the purpose of discussing matters confidential under the state's Sunshine Law. An agenda is prepared for these executive sessions and the agenda is posted to the Board's website prior

to that meeting. Additionally, the Board may consider matters that necessitate a hearing and these matters are conducted immediately prior to a scheduled public meeting. When the hearing is concluded, the Board's Chair may call for an executive session to engage in quasi-judicial deliberations regarding the matters which were the subject of the hearing. A log of executive sessions held by the Board during fiscal year 2021-22, including reference to the agenda posted on the Board's website, is set forth below:

GAMING OVERVIEW IN PENNSYLVANIA

Retail Casinos

Pennsylvania saw the opening of two new retail casinos in fiscal year 2021/2022, bringing the total casino count to 16. There are six category 1 facilities (horse racing tracks), five category 2 facilities (stand alone) two category 3 facilities (resorts) and three category 4 facilities (mini-casinos). The newest facilities to open were Category 4 “mini-casinos”, authorized by the legislature under the gaming expansion in 2017. Hollywood Casino York was the first to open on August 12, 2021 and is located in a shopping mall in Springettsbury Township, York County. The second to open was Hollywood Casino Morgantown on December 22, 2021, located in Caernarvon Township, Berks County just off the Pennsylvania Turnpike. Together, retail revenue (slots and table games) at Pennsylvania casinos reached a record amount of \$3.3 billion elapsing the previous high of \$3.2 billion in FY 2018/2019. (More information can be found about retail casinos on pages 10-36).

iGaming

Interactive Gaming (iGaming) continued to grow during the fiscal year with the addition of 3 new iGaming sites

in Pennsylvania, increasing the total number of iGaming sites to 19 associated with ten certificate holders. The new sites were Betway under the Live! Philadelphia Casino certificate, PointsBet under the Hollywood Casino at Penn National Race Course certificate and WSOP (World Series of Poker) under the Harrah's Philadelphia Casino certificate. iGaming revenue increased by 37 percent to \$1.2 billion last fiscal year, up from \$897 million in the previous fiscal year (More information can be found about iGaming on Page 15).

Sports Wagering

Sports Wagering site options also increased with 18 retail locations at casinos or off-track wagering facilities and 14 online sports wagering sites available at the end of the fiscal year. Specifically, retail locations increased by three with the additions of Hollywood Casino York, Hollywood Casino Morgantown and at the Parx Malvern Off Track Betting location within a Chickie's & Pete's Restaurant. Two additional online sites were added: Betway in association with Live! Philadelphia Casino and PointsBet in association with Hollywood Casino York. In Fiscal Year 2021/2022, \$7 billion was wagered on sporting events generating \$315 million in revenue, a 2% increase over revenue in the prior fiscal year. (More information can be found about Sports Wagering on Page 16)

Video Gaming Terminals at Truck Stops

The number of Video Gaming Terminal (VGT) locations at qualified truck stops rose by 17 to 65 during Fiscal Year 2021/2022 compared to the close of the previous fiscal year. All Licensed Establishments are equipped with the maximum of 5 machines under four licensed VGT Operators. The rise in the total VGTs from 240 to 325 resulted in a revenue increase of 32% over last fiscal year. (More information can be found about VGT's at Truck Stops on Page 17)

Fantasy Sports Contests

Fantasy Sports Contests was the only gaming segment to see revenue reduction over the previous fiscal year with a slight decrease to \$27.6 million in the 2021/2022 Fiscal Year compared to \$28.1 million in the previous fiscal year. There are currently nine Fantasy Contest Operators licensed in Pennsylvania. (More information can be found about Fantasy Sports Contests on Page 18)

INTERACTIVE GAMING

Interactive Gaming (iGaming) revenue reached \$1.2 billion during Fiscal Year 2021/2022, an increase of 37% from the previous fiscal total of \$897 million. This generated \$861 million in tax revenue during the fiscal year.

During the fiscal year, three new iGaming sites came online with Betway offering internet-based simulated slot machine and table games through the Live! Casino Philadelphia iGaming certificate; PointsBet which offers internet-based simulated slot machine and table games through the Hollywood Casino at Penn National Race Course iGaming certificate; and WSOP (World Series of Poker) which began offering iPoker games through the Harrah's Philadelphia iGaming certificate. These additions brought the total number of iGaming sites in Pennsylvania to 19.

Additionally, interactive gaming saw eight new game manufacturers enter the PA market which continued the expansion of gaming options on the various platforms. Players can now pick from over 300 new gaming titles that have been tested and approved to meet regulatory standards.

Live dealer tables games, in which players can watch dealers shuffle and deal cards via a real time video feed, continued to increase in popularity throughout the fiscal year and now comprise approximately 50% of the iTables revenue generated in Pennsylvania.

As the Interactive Gaming market continues to mature in PA, the PGCB has placed an emphasis on account security and introduced new requirements related to account security which are designed to reduce fraud, identify theft, and unauthorized account access. These new requirements align Pennsylvania with best industry practices across the regulated Interactive Gaming industry in the United States.

In order to offer iGaming play in PA, each operator must demonstrate the ability to offer its games in an environment that is secure, offers protection for the consumer, offers only games that have passed regulatory standards, and follow internal controls for all aspects of their operations. Additionally, iGaming sites are continually monitored to ensure they contain all information required per the Board's regulations such as the "PGCB Licensed and Regulated" logo, responsible gaming information, and terms and conditions for the players.

SPORTS WAGERING

Fiscal Year 2021/2022 continued to see growth in both the number of retail and online sports wagering operators and the corresponding growth in the amount wagered on sporting events. With the addition of three new retail outlets that opened during the fiscal year (Hollywood Casino York, Hollywood Casino Morgantown, and Parx Race & Sportsbook at Malvern), there are a total of 18 retail sports wagering locations. Additionally, two new online sites launched during the fiscal year (Betway and PointsBet), for a total of 14 sports wagering websites currently operating in Pennsylvania.

With the addition of both new retail locations and online sports wagering sites, there was a corresponding increase in overall sports wagering handle of \$7,085,363,762 (the amount wagered). This revenue represents a 27% increase when compared to the prior fiscal year.

Before a new sports wagering operator can open or launch in Pennsylvania, it must demonstrate to Board staff, through a soft launch process, that live sports wagering is ready to be offered to the public and in compliance with both the Gaming Act and Board regulations. For retail sports wagering, this includes making certain that staff were adequately trained to offer sports wagering, that security and surveillance protocols are present, and that policies and procedures designed to ensure compliance with internal controls have been implemented. For online sports wagering, this testing

included reviews of the creation of customer accounts, wagering activity by the public in a live environment, and responsible gaming tools in a controlled testing environment. Additionally, Board staff observe customer support activities during the testing periods to monitor the handling of patron complaints, along with a review of financial information gathered following the soft launch period in order to confirm proper accounting controls were in place.

Once a sports wagering operation is open to the public at either a retail outlet or an online operation, staff from the Gaming Control Board monitors each operation on a continuous basis to ensure they meet all regulatory requirements. This includes the licensure of all appropriate organizations and individuals; testing of all technical equipment used in the offering of sports wagering; review of the types of events and wagers offered to the public; review of responsible gaming tools; and the review of revenue reporting procedures. A review of all promotional offerings is also conducted on a routine basis. Board staff also conduct compliance reviews and address patron complaints received from the general public. If it is determined that a regulatory violation may have occurred, matters are investigated and corrected by the sports wagering operators when identified and subsequent referral of the matter is made to the Board's Office of Enforcement Counsel.

The expansion of both retail locations and online sites has resulted in an increase in overall sports wagering handle. During Fiscal Year 2021/2022, the amount wagered on sports produced taxable revenue of \$315,716,247 and tax revenue of \$113,657,849 which represented a 2.22% increase when compared to the prior fiscal year.

VIDEO GAMING TERMINALS AT TRUCK STOPS

There was continued growth of Video Gaming Terminals at Truck Stops (VGT) during Fiscal Year 2021/2022. By the end of the fiscal year, there were a total of 65 facilities in 31 counties offering VGTs compared to 52 facilities in 27 counties at the close of the previous fiscal year. VGT machine count increased from 260 to 325 over the same period.

It is also important to note that collectively over 1,100 individuals have been licensed/permitted/registered for involvement in some level of operation and oversight of the VGTs at these facilities

A Truck Stop Establishment that wishes to offer VGT gaming must meet the following criteria:

- have a diesel island;
- sell an average of 50,000 gallons of diesel per month;
- be located on at least 3 acres of property not owned by the Pennsylvania Turnpike Commission;
- have at least 20 dedicated commercial parking spaces;
- have a convenience store; and,
- be a PA Lottery sales agent.

Prior to offering VGT play to the public, an operator must go through an onsite inspection and meet minimum opening requirements. All operators must have individuals fully licensed by the PGCB and those individuals must have completed problem gambling training. Also, the VGT area must be separated from the rest of the establishment by a physical barrier with only one point of entry/exit and they must have camera surveillance coverage of the entire gaming area.

All VGT establishments must offer copies of compulsive and problem gaming handouts developed by the Board and have them conspicuously displayed, along with signs containing the phrase, "If you or someone you

know has a gambling problem, help is available. Call 1-800-GAMBLER."

The 65 operating facilities generated \$40 million in revenue during FY 2021/2022 while paying \$17 million in state tax and an additional \$4 million in tax to benefit local projects across the state.

At the close of the fiscal year, there were 15 VGT Terminal Operators licensed by the PGCB. Of that number, 4 VGT Terminal Operators currently have active truck stop facilities in Pennsylvania.

VGT Terminal Operators:

- Accel Entertainment Gaming (PA), LLC
- Anant Krupa, LLC DBA: Infinity Gaming
- Coleman Music and Entertainment, LLC
- Commonwealth Gaming, LLC DBA: Commonwealth Gaming
- Compass Gaming, LLC
- Golden Route Operations-Pennsylvania, LLC

Commonwealth Gaming	\$6,039,240	\$2,536,481	\$603,924
J&J Ventures Gaming	\$4,636,097	\$1,947,161	\$463,610
Jango Entertainment	\$4,593,159	\$1,929,126	\$459,315
Fiscal Year Total	\$41,584,158	\$17,465,346	\$4,158,415

FANTASY SPORTS CONTESTS

Fantasy Sport Contests operators are required to be licensed by and subject to oversight by the PGCB so that anyone that enters into a contest is assured that each licensed operator meets standards set out in both the law and regulations.

Of particular note, Pennsylvania law requires licensed Fantasy Sports Contests operators to offer contests to “beginners”, thus separating highly experienced players into a different level of contests. Additionally, in order to provide fair contests, the use of “scripts” by participants which can impart unfairness in the play of fantasy contests are prohibited.

The licensing and regulation of the Fantasy Sports

Contests providers allowed for the calculation of revenue and taxes owed to the Commonwealth based upon entries made while the player is within Pennsylvania. That tax rate is 15% of the adjusted revenue, with the tax revenue going to the state’s General Fund.

Fantasy Sports Contests produced \$27.3 million of adjusted revenue in the 2021/2022 Fiscal Year and \$4.1 million in tax revenue. There are currently ten Fantasy Contest Operators licensed in Pennsylvania.

A chart of operators licensed to conduct Fantasy Sports Contests in Pennsylvania and revenue for the Fiscal Year 2021/2022 is below.

FY21/22	Fantasy Contest Fees	Fantasy Contest Revenue	Fantasy Contest Tax
DataForce	\$183,490	\$30,587	\$4,588
DraftKings	\$136,632,075	\$15,006,027	\$2,250,904

Total	\$258,642,416	\$27,308,976	\$4,096,347

LOOK TO THE FUTURE

Expansion of the Pennsylvania gaming industry continues. Work is already underway in Cumberland County for the Commonwealth's fourth Category 4 Mini-Casino. Parx Casino Shippensburg will be the third Mini-Casino to occupy repurposed retail space following a similar construction path of closed anchor stores in malls in Westmoreland and York Counties. The Shippensburg project will locate in a vacant Lowe's store and occupy 73,000 square feet and offer 500 parking spaces. The casino will open with approximately 500 slot machines and 48 electronic table game positions, along with a restaurant. The casino is expected to create 125 new permanent jobs once it opens.

At publication time, the Board was still considering a fifth Category 4 casino in Centre County to be operated by Bally's. If the license is approved, the plans are to also utilize vacant store space at a mall.

In addition, there will be further growth in the options for the public for sports wagering and iGaming. During Fiscal Year 2022/2023, two additional retail locations for sports wagering along with several online sports wagering sites are expected to launch. Also, PGCB staff will be working on the launch of up to ten additional online sites to offer casino-type games.

Construction continued on Parx Casino Shippensburg as the fiscal year concluded.
