Forward-looking Statements

This release contains forward-looking statements regarding operating trends and future results of operations. Such forward-looking statements are subject to a number of risks and uncertainties that could cause actual results to differ materially from those we express in these forward-looking statements, including, but not limited to, the COVID-19 pandemic, and the continued impact of its consequences, extensive regulation of our business, pending or future legal proceedings, ability to maintain gaming licenses and concessions (including with respect to our ability to extend or renew our gaming concession in Macau, which expires on December 31, 2022, and the amendments to the Macau gaming law), dependence on key employees, general global political and economic conditions, adverse tourism trends, dependence on a limited number of resorts, competition in the casino/hotel and resort industries, uncertainties over the development and success of new gaming and resort properties, construction risks, cybersecurity risk and our leverage and debt service. Additional information concerning potential factors that could affect the Company's financial results is included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021 and the Company's other periodic reports filed with the Securities and Exchange Commission. The Company is under no obligation to (and expressly disclaims any such obligation to) update or revise its forward-looking statements as a result of new information, future events or otherwise, except as required by law.

Non-GAAP Financial Measures

(1) "Adjusted Property EBITDA" is net loss before interest, income taxes, depreciation and amortization, pre-opening expenses, property charges and other, management and license fees, corporate expenses and other (including intercompany golf course, meeting and convention, and water rights leases), stock-based compensation, change in derivatives fair value, loss on extinguishment of debt, and other non-operating income and expenses. We use Adjusted Property EBITDA to manage the operating results of our segments. Adjusted Property EBITDA is presented exclusively as a supplemental disclosure because management believes that it is widely used to measure the performance, and as a basis for valuation, of gaming companies. Management uses Adjusted Property EBITDA as a measure of the operating performance of its segments and to compare the operating performance of its properties with those of its competitors, as well as a basis for determining certain incentive compensation. We also present Adjusted Property EBITDA because it is used by some investors to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDA as a supplement to GAAP. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including us, have historically excluded from their EBITDA calculations preopening expenses, property charges, corporate expenses and stock-based compensation, that do not relate to the management of specific casino properties. However, Adjusted Property EBITDA should not be considered as an alternative to operating income as an indicator of our performance, as an alternative to cash flows from operating activities as a measure of liquidity, or as an alternative to any other measure determined in accordance with GAAP. Unlike net loss, Adjusted Property EBITDA does not include depreciation or interest expense and therefore does not reflect current or future capital expenditures or the cost of capital. We have significant uses of cash flows, including capital expenditures, interest payments, debt principal repayments, income taxes and other non-recurring charges, which are not reflected in Adjusted Property EBITDA. Also, our calculation of Adjusted Property EBITDA may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

(2) "Adjusted net loss attributable to Wynn Resorts, Limited" is net loss attributable to Wynn Resorts, Limited before pre-opening expenses, property charges and other, change in derivatives fair value, loss on extinguishment of debt, and foreign currency remeasurement and other, net of noncontrolling interests. Adjusted net loss attributable to Wynn Resorts, Limited and adjusted net loss attributable to Wynn Resorts, Limited per diluted share are presented as supplemental disclosures to financial measures in accordance with GAAP because management believes that these non-GAAP financial measures are widely used to measure the performance, and as a principal basis for valuation, of gaming companies. These measures are used by management and/or evaluated by some investors, in addition to net loss and loss per share computed in accordance with GAAP, as an additional basis for assessing period-to-period results of our business. Adjusted net loss attributable to Wynn Resorts, Limited and adjusted net

loss attributable to Wynn Resorts, Limited per diluted share may be different from the calculation methods used by other companies and, therefore, comparability may be limited.

The Company has included schedules in the tables that accompany this release that reconcile (i) net loss attributable to Wynn Resorts, Limited to adjusted net loss attributable to Wynn Resorts, Limited, (ii) operating income (loss) to Adjusted Property EBITDA, and (iii) net loss attributable to Wynn Resorts, Limited to Adjusted Property EBITDA.
